

Coriander Sandalwood DeepSpectra™ essential oil extract

Product Size: 5 ml
Item No: 44279

A unique fusion of Coriander essential oil and sandalwood plant material to create an entirely new essential oil extract.

SUGGESTED USAGE

- Add to your daily moisturizer or lotion.
- Mix with a carrier oil and use in place of your nighttime skin serum.
- Use as a base note for your own personal fragrance.

DIRECTIONS

Topical: Apply 2–4 drops directly to desired area. Dilution not required, except for the most sensitive skin. Use as needed.

SAFETY

Keep out of reach of children. For external use only. Keep away from eyes and mucous membranes. If you are pregnant, nursing, taking medication, or have a medical condition, consult a health professional prior to use.

KEY CONSTITUENTS

Linalool, Alpha-pinene, Camphor

ABOUT

With our patents-pending DeepSpectra™ technology, we used Coriander essential oil to extract compounds from sandalwood trees. As a result, this extract contains additional compounds that aren't found in essential oils extracted solely through steam or hydro distillation. Discover the possibilities of this brilliant essential oil extract in your skin care routine.

BENEFITS AND FEATURES

- Promotes the appearance of younger-looking skin when used in your daily moisturizer
- Has a soft, velvety, slightly woody aroma
- Contains antioxidant properties

INGREDIENTS

Coriandrum sativum† (Coriander) seed oil, Santalum paniculatum† (Royal Hawaiian Sandalwood™) wood oil

†Premium essential oil
