

Green Omega 3™ softgels

Product Size: 60 softgels

Item No: 44024

Compared to other vegan omega-3 supplements, Green Omega 3 softgels contain one of the highest amounts of DHA and EPA. Each serving packs 330 mg of DHA (*docosahexaenoic acid*) and 160 mg of EPA (*eicosapentaenoic acid*) from a pure plant source—marine algae. We also added flaxseed oil—which is naturally rich in ALA (*alpha-linolenic acid*)—and Clove essential for its antioxidant properties. Together, these plant-based ingredients give you all the benefits of fish oil supplements without the fishy aftertaste!*

Not all omegas are created equal. This vegan omega-3 supplement serves up essential fatty acids from algal oil instead of fish oil to support your heart, brain, eyes, and immune system.*

BENEFITS AND FEATURES

- Supports heart and circulatory health*
- Supports cardiovascular and skeletal health*
- Supports normal, healthy brain function*
- Supports normal immune response and antioxidant levels*
- Promotes healthy eye, skin, and joint health*
- Supports general wellness*
- Supports metabolic health*
- Supports a healthy inflammatory response*

Green Omega 3™ softgels

INGREDIENTS

Algal (*Schizochytrium sp.*) oil, Tapioca starch, Flaxseed (*Linum usitatissimum*) oil, Glycerin, Water, Clove† (*Syzygium aromaticum*) flower bud essential oil, Vitamin E (as d-alpha-tocopherol)

†Premium essential oil

WHAT IS ALGAL OIL?

Algal oil is a plant-based source of two omega-3 fatty acids, DHA and EPA, derived from algae. Algae are easy to grow, requiring only sunlight, carbon dioxide, nitrogen, and phosphorus, making algae farming one of the few operations with a neutral carbon footprint.

As the world's population grows and puts pressure on wild fisheries, alternative plant-based sources of omega-3s, like algal oil, are becoming increasingly popular. Algal oil provides a sustainable way to supplement your nutritional needs and positively impacts the planet.

CAUTIONS

Keep out of reach of children. If you are pregnant, nursing, taking medication, or have a medical condition, consult a health care professional prior to use.
