

SECURE **Missouri Elections**

What do our own real
trained cyber-war experts have to say?

ELECTIONS BELONG TO THE CITIZENS

“We came in and looked around and could not believe our eyes!”

*“The people who have been telling the American public that their elections are secure **don’t have the slightest idea what they are talking about.**”*

**“The perpetuation of these
vulnerabilities are inexcusable.”**

*“But at this point, the adults have entered the room and it’s time we explain what’s **true** about our voting systems and their vulnerabilities.*

The only thing keeping us from fixing it is the public demanding it, and public officials listening.”

**“WE HAVE OUTSOURCED OUR
ELECTIONS TO...**

Private companies – controlled by foreign equity.”

Ret. Col. Phil Waldron

**“The technology being used is not secure
and cannot be secured.”**

Ret. Col. Shawn Smith
