

SB 727: EDUCATION DISASTER

SB 727 is an education omnibus bill with MANY problems that support a woke, liberal agenda & that infringe on the rights of private Christian schools & home schools.

TOP 4 BIG PROBLEMS

PRIVATE SCHOOL TEACHER CERTIFICATION

This new creation is setting the stage for private schools to be sued & for more regulation & overreach. DESE will begin to creep into the private school space over time.. This is a HUGE risk for our Christian schools!

OVERREACH FOR HOME SCHOOLS

DESE will now write rules for the ESA school voucher program. This means more regulations for home schools and private schools who take these funds. They also change the definition of home schools. This could create many other problems for homeschooling families.

WOKE BOOKS & DATA COLLECTION

This new program will be mailing 9 books per year to K-5th graders. Student chosen books w/no accountability measures. This program also creates a new data collection system for participating families.

UNCONSTITUTIONAL

This bill violates the Missouri Constitution, Article 3 Section 21 & 23, which says bills should stick to the original purpose and have one subject. This bill's original intent changed and now includes 21 subjects.
