

A NOTE FROM CINDY

Thank you so much for reading my story in the Infertility Success Book.

My parents were older when they had me and I was older when I had my daughter. So, when my daughter was born I didn't know that I would have less than 3 years left with my dad and only 7 years left with my mom.

So I know the importance of family memories and stories to savor and keep.

A NOTE FROM CINDY

I created these letters for you to write to your sweet baby. Also, ones for the baby's dad and grandparents to write. Have them write a letter to the baby in their own handwriting.

Trust me you won't regret this. This will be something you will cherish and have to keep for generations to come. Make it a family tradition by having your child(ren) do this for their children.

Love,

Cindy
