

GET TO KNOW THIEVES & THIEVES VITALITY

WHY YOU NEED IT:

Thieves is a legendary blend of purifying essential oils: Clove, Lemon, Cinnamon Bark, Eucalyptus Radiata, & Rosemary - all known for immune support and cleansing properties. These oils have been studied for their ability to inhibit the growth of bacteria & other bad guys in your body and home.

HOW TO USE IT:

CAUTION - Thieves is a hot oil, and should be combined with a fatty carrier oil like coconut or jojoba before being applied to those with sensitive skin.

The first blend we reach for when we're under the weather, Thieves can be applied to the bottoms of the feet or the spine. Try a spicy drop of Thieves Vitality dropped under your tongue or in a vegetable capsule to support your immune system! It can also be gargled in an ounce of water to help soothe tired throats.

THIEVES PRODUCTS:

Young Living utilizes this powerful blend in a full line of products to keep your home truly clean in the simplest, most natural way. A few of the most popular Thieves products include:

- + THIEVES HOUSEHOLD CLEANER
- + THIEVES FRUIT & VEGGIE WASH
- + THIEVES LAUNDRY SOAP

THIEVES
TESTIMONIES

do they even work?
like, for real?

yep. they work.
we use them **topically** on our skin (where they're absorbed easily), **internally** in capsules or dropped under our tongues, and **aromatically** in diffusers (which is incredibly beneficial for lots of things - especially emotional health).

common questions

about getting started

is there really a difference in these and the ones I see at Target?

oh friend. a huge difference. most of the oils you see in stores like that have warnings against using topically or ingesting because they're packed with harmful fillers!
