Hello

I'm so excited to get to walk you through my step by step guide to a natural and non-toxic home. In this guide you'll learn how simple it is to ditch chemicals and synthetics within your home and pursue a more natural way of life. I have done this primarily by shopping at "one stop shop" brand called Young Living. They have everything you need to transition your home. If you have any questions at all throughout this guide, please don't hesitate to reach out!

TAKING BABY STEPS OVER TIME

DON'T BE OVERWHELMED

don't let the idea of transitioning your entire home overwhelm you. my biggest piece of encouragement is to take things SLOW. this is about simplifying your life, lightening your toxin load and burden on your body, cleaning out excess chemicals and ingredients that do not benefit you or your family. this doesn't happen in one day, but over time as things run out replace them
