# Your Guide to the 14 DAY RESET

# 14 Day Reset Challenge

Hey there! I'm so excited for you to do the 14 Day Reset and experience the life-changing results that this challenge can create! This guide will contain everything you need to do this 14 Day Reset Challenge.

Make sure you are plugged into the [14 Day Reset Facebook group](#) for community, videos, tips, accountability, giveaways, and more! You'll be more successful and have more fun doing this challenge with friends!

## The 14-Day Reset is made up of 5 things that you do daily:

1. Drinking NingXia Red - the superstar antioxidant drink!
2. Drinking 1/2 your body weight in ounces of water
3. Eating clean & eliminating inflammation-causing foods
4. Move your body at least 30 minutes - any way you want!
5. Intentionally reducing & managing your stress

### How much NingXia Red?

You'll need 102 ounces for the 14 day challenge!

#### Day 1-3:

Drink 4 ounces in morning, afternoon, and evening for a total of 12 ounces a day.

#### Day 4-14:

Drink 2 ounces in morning, afternoon, and evening for a total of 6 ounces a day.

Stick with this plan and you can expect to see results.

# 14 Day Reset MEAL PLAN RECIPES

One of the main components of the 14 Day Reset is eating a clean diet. There are several options from which you may choose. We compiled many resources and recipes from various healthy meal plans for you. Check out the links below to get started.

## **Suggested 7-day Recipes meal plans found here:**

Use [this meal plan](#) for both weeks of the challenge for a total of 14 days. Feel free to make substitutions for different recipes if you need to - just be aware of anything with added sugar, white flour, seed oils, or any processed foods. Dairy free alternatives are provided.

## **Find many more meal plan options here:**

At [this link](#), you will find links to meal plans and recipes for Whole30, Keto, GAPS, Paleo, Whole Foods, and no processed sugar.

## **Another healthy plan idea:**

Some people find Whole30 too restricting, so instead they eliminate wheat, dairy, alcohol, and sugar. They include quinoa and brown rice, as well as legumes.

They use natural sweeteners like honey and maple syrup sparingly. Use recipes that you like from the other various meal plans that follow these eliminations.

**Two time Nobel Prize winner Dr. Linus Pauling said, "You can trace every sickness, every disease and every ailment to a mineral deficiency."**

# Let's talk about PROTEIN

**Increasing protein intake is crucial for effective weight loss due to several reasons:**

- protein promotes feelings of fullness and reduces unnecessary snacking, which supports calorie control.
- protein boosts energy and metabolism.
- protein helps preserve lean muscle mass during weight loss, maintaining a higher metabolic rate and improving body composition.
- protein enhances exercise performance and aids in muscle recovery.

Balancing protein with a well-rounded diet and physical activity is key.

## 10 grams

### PROTEIN

- 1 cup of Greek yogurt
- 3 egg whites
- 1 cup of milk (dairy or plant-based)
- 1 small chicken breast (cooked)
- 1.5 oz ground beef

# Intermittent Fasting

## TRADITIONAL GUIDELINE

See [Intermittent Fasting 14 Day Reset FAQ Sheet](#) for more info.  
Do not start drinking NingXia until after your eating window starts.

Fasting Window	Potential Benefits
10 hours (basic starting fast)	Allows body to get used to going longer periods without eating
12-16 hours	Switches body between sugar burning and fat burning
<b>Note: fasting windows longer than 18-20 hours should be done occasionally, not daily.</b>	
17+ hours	Autophagy kicks in; great for detoxing, improved energy, improved brain function/cognition, and balancing sex hormones
24+ hours	Burst of stem cell production in digestive tract; mucosal lining has a chance at repair; great for post-antibiotic use, post-birth control repair, and tackling SIBO
36+ hours	Releases stored sugar; liver repair; done occasionally
48+ hours	Dopamine reset
3 day water fast	Immune system reset

**\*Stop eating 4-5 hours before bedtime.**

# Intermittent Fasting

## FOR FEMALE HORMONES GUIDELINE

Day 1 is the first day of bleeding in a cycle. If in menopause, use the moon cycle with the full moon being your "Day 1". Start with an 8 hr window of eating. It is very important to feed female hormones when fasting vs the traditional intermittent fasting. See Intermittent Fasting 14 Day Reset FAQ Sheet for more info.

Fasting Window	Potential Benefits
Days 1-10	Power Phase/Keto Biotic: Increase protein intake to 75 gms, more than 60% of food coming from good fats, moderate carbs @ 50 gms.
Days 11-15	Ovulation/Hormone Fasting: 100-150 gms carbs to feed progesterone, at least 50 gms protein, and healthy fats as desired.
Days 16-19	Power Phase/Keto Biotic: Repeat as Days 1-10.
Days 20-to menses	Nurture Phase/Hormone Fasting: Repeat as Days 11-15 Lean into whole food nutrition, allow yourself to step off the fasting wagon the week before your period to feed your hormones properly!

**\*Stop eating 4-5 hours before bedtime.** Source: Fast Like A Girl / Dr. Mindy Pelz

# Top Processed

## FOODS TO AVOID

Making better choices and cultivating a healthier lifestyle involves opting for whole, unprocessed foods to provide your body with essential nutrients that promote health, wellness, and longevity.

Do your best, it's not all or nothing, but avoiding processed foods that contain excess sugars, additives, preservatives, pesticides, herbicides, fungicides, GMOs, nitrates, artificial flavors, colors, and smells will reduce your risk of negative health outcomes, including cancer.

Enjoy fresh fruits and veggies. Soak your legumes, nuts, and seeds before you eat, sprout them if you can. Make homemade sauces and dressings with herbs from your pantry. Eat whole grains that aid in digestion and assimilation. Animal proteins should be grass-fed and humanely treated. Delight in unrefined and cold-pressed nutrient rich oils. Eat in moderation if organic & GMO free. You are allowed natural sugars like honey, maple syrup, erythritol, stevia/rebaudioside, xylitol, and yacon.

# Daily WORKOUTS

An important part of the 14 Day Reset is moving your body for at least 30 minutes every day! This can look however you want - walking, running, yoga, pilates, cycling, swimming, weight training, etc. Check the Facebook group for lots of workout suggestions. Choose a workout plan and scan the QR code to gain access:

- [7-day weight training workout plan.](#)

- [Trainings and workouts](#) from our trainer, Anna Reimers.

- [Grow with Jo on YouTube.](#) Many people love her workouts.

- A 30 day free trial for [peloton](#) which has great in home workouts, not just for the bike.

- A great [YouTube workout](#) option.

Studies have shown that **150 minutes of exercise or more each week increased life expectancy by about 7 years** over those who didn't do regular moderate exercise. This benefit was seen regardless of weight, age, sex and health conditions.

# Daily Journal PROMPTS

**Reducing stress is key to this whole process...**

Use these journal prompts each day of the challenge to help you overcome and process any emotions that might be holding you back.

**Day 1:** Reflect on the moments when you have overeaten or cheated on your diet. What triggered you to overeat? How can you develop healthier coping strategies to deal with those emotions without turning to food? i.e. go for a walk, take 10 deep breaths, use a calming essential oil like Stress Away, etc.

---

---

---

---

**Day 2:** What are your most common food cravings, and what emotions or situations trigger them? What are some healthier alternatives or rewards you can give yourself? i.e. frozen grapes, drink a glass of water with lemon, raisins or dates, etc.

---

---

---

---

**Day 3:** Reflect on any fears or concerns you have about losing weight or changing your lifestyle. What is holding you back? How can you reframe your mindset to embrace the possibility of positive transformation?

---

---

---

---

**Day 4:** Write down any negative thoughts or beliefs you have about your body. How do these thoughts impact your motivation and self-esteem? Re-write those thoughts into a positive statement. Say these positive out loud daily. i.e. I hate my arms = I love my arms as they are becoming stronger.

---

---

---

**Day 5:** Reflect on any past traumas or difficult experiences that may be affecting your relationship with food and weight loss. What would a healthier coping mechanism or strategy be for managing emotions when those come up? i.e. listen to a positive self love meditation on YouTube.

---

---

---

---

**Day 6:** Reflect on situations where your perfectionism has hindered your weight loss progress. How can you adopt a more flexible and balanced approach? How can you set realistic goals and celebrate small wins along the way?

---

---

---

---

**Day 7:** Identify common stressors in your life and how they impact your eating habits or motivations to engage in healthy behaviors. How can you prioritize self-care and emotional well-being in your weight loss journey?

---

---

---

---

Remember, journaling is a personal and reflective practice. Take your time with each prompt, and allow yourself to delve deep into your thoughts and emotions. It can be helpful to revisit your responses over time to track your progress and identify patterns. Journal your way through these prompts during the 14-Day Reset as a way to help you explore your own mindset and reduce stress.

# NINGXIA RED - THE WOLFBERRY SUPERFRUIT

"LET FOOD BE THY MEDICINE AND MEDICINE BE THY FOOD"

Healthy bodies fight stronger. Supplementation is intended to bridge the nutritional gap, so we can maintain a healthy lifestyle!

## 5 REASONS WE NEED TO SUPPLEMENT OUR NUTRITION

- 90% of people lack the recommended amount of nutrients. Dr. Linus Pauling said, "You can trace every sickness, every disease and every ailment to a mineral deficiency." Minerals are the key to preventing disease and increasing health, but are severely lacking in our modern diets due to pesticides robbing the soil of essential nutrients and minerals.
- Nutrient absorption declines with age, because the body does not have the same ability to break down and absorb nutrients. Statistically, those who are older are on more medications which can deplete essential nutrients. Supplements can help restore this imbalance.
- Environmental issues like harmful pesticides and herbicides used to farm our food, chemicals found in our water supply, and pollution drastically increases our need for extra vitamins and minerals. These chemicals create free radicals that attack our digestive and immune system.
- Exercise uses up the energy and nutrients that have been stored in your body. It is vital to replenish and promote recovery after a workout.
- Natural Healthcare providers are encouraging people to supplement for their health instead of expensive disease treatment.

## WHAT ARE FREE RADICALS?

When you cut open an apple, it turns brown from the oxygen. This is exactly what happens to our cells during oxidation. Oxidation is a chemical process which involves harmful free radicals in the body.

## COMMON CAUSES OF FREE RADICALS INCLUDE:

- Smoking tobacco or drinking alcohol
- Exposure to toxic chemicals
- Poor diet, high levels of fried foods
- Daily stress and lack of quality sleep

## WHY ANTIOXIDANTS?

Antioxidants are compounds which prevent oxidation in the body or in foods. Consuming high levels of antioxidants daily will protect your cells from oxidation and may significantly increase your health! Zeaxanthin is an antioxidant that helps protect your eyes from harmful ultraviolet rays in sunlight or blue light rays from electronics. Studies show that diets rich in this antioxidant are great for keeping your eyes healthy. Zeaxanthin is found in foods like raw egg yolk or red peppers, but is found in much larger amounts in the Ningxia Wolfberry!

## HISTORY OF NINGXIA RED

Young Living Founder D. Gary Young was traveling the world over 20 years ago seeking the secrets of longevity, energy, and vitality.

While in China, Gary learned that Wolfberries originated in NingXia, China. Although there are 17 different species of Wolfberries, the NingXia Wolfberry is the most nutritionally dense and the most researched and tested. Chinese biochemists at the NingXia Institute of Nutrition had analyzed the wolfberry and found it to be one of the most nutrient-dense antioxidant foods along with having a daily dose of minerals needed for a healthy body!

Wolfberries (*Lycium Barbarum*) date back to the first pharmacopoeia printed book written in 475 BC from the Ming Dynasty.

Gary learned that people in this area led remarkably long and healthy lives (many lived over 100 years old!) He became convinced that this superfruit needed to be made available to the world, and brought the NingXia Wolfberry to Young Living.

Young Living is the ONLY company in the world with the proprietary blend of NingXia Red. By adding essential oils, this formula is easily absorbed by your body, and simple for everyone in your home to benefit from and enjoy!

# Share your STORY

Take time and journal through your journey with this reset.

- What was your primary problem you wanted to fix coming into the 14 Day Reset?
- How did you feel about these problems and how did they impact your life and relationships?
- What was missing that was the key to your success? (ie. community, accountability, NingXia Red)
- How is your family life/relationships different now after doing the 14 Day Reset?
- What results have you seen doing the 14 Day Reset? ( ie. Weight loss, inflammation down, more energy or better sleep)

Once you have filled this out, you can use these answers to curate a transformational testimony to share with others in person or on social media. Our goal is not to come across salesy, but to transform people's lives by sharing our journey. When they resonate with our story and decide they want to see a change in their health, we get to be a part of that process.

Let me know when you finish this journal page, I would love to help you with this.

# What's NEXT?

*Congratulations!* You made it! Hopefully, you created some new habits and this Reset has revived your health journey. You may be wondering what to do next, so here are some suggestions:

- Join us for the next 14 Day Reset, we begin a new round the 2nd Monday of each month. Many people are finding success by doing multiple rounds, until they reach their health goals.
- The more rounds you do, the faster that you will reach your goals.

## **HOW OTHERS FOUND SUCCESS IN BETWEEN ROUNDS:**

- Continue to move daily and drink your water
- Continue to eat healthy. Allow yourself 1 or 2 cheat meals a week. OR eat healthy in your normal daily life and allow yourself to cheat when you are out with friends or on special occasions (80/20% rule)
- Keep up with 4 - 6 ounces of NingXia Red daily. Begin with 2 oz in the morning. For afternoon cravings, have another 2 oz. Instead of dessert post-dinner, opt for 2 oz more. This routine will help you stay focused on your health goals. To maintain this habit, order the monthly NingXia Red Loyalty Bundle – it's the best deal and ensures you always have enough.

You will want to order the NingXia Red Loyalty Bundle each month, as this is one of the best deals.

## ***Celebrate your wins!***

Reward yourself with a treat, a new outfit, or some pampering when you accomplish a goal like:

- Exercised for 30 days in a row
- Lost 10 pounds
- Drank all your water
- Went down a size

*Tell a friend & see you in the next round!*

“ My wins have merged from my first reset on 9/11. Great energy....mobility is amazing....focus is clearer....screen time on my phone was consistently down each week....this was my 3rd consistent Reset....**down 22 lbs...34 inches.** Woo hoo! I have a waist again. This was my husbands first Reset and he lost 9 lbs which is amazing considering 2 spine reconstructions and limited ability for exercise.”

**-Carolyn**

“ I am AMAZED at the results of my FIRST RESET. I had so many personal issues in my family during these 14 days and did NOT expect to see much except a couple of pounds. The first thing I noticed was **how much better I was sleeping**, which immediately affected everything else in my life. plus I am smiling more, and feel like I am worth the effort. I am just so happy to be a part of this amazing community. **Thank YOU all for your support!**”

★★★★★

**- Honey**

“I have **lost 12 inches and 5 pounds.** I looked in the mirror last night and thought I was pretty, and it's been a while since I've genuinely felt that.”

★★★★★

**- Cindy**

“I went from 170 lbs down to 162 lbs. My mood has improved, my joints don't hurt anymore.”

★★★★★

**- Alicia**

“ I started my first reset in May 2023. I felt miserable. I was bloated and looked like I was six months pregnant. *I couldn't even look at myself in the mirror.* I have continued doing these resets each month and I am so happy with the results that I am seeing. **I have released 27 lbs and 6 inches in my waist.** I have a lot more confidence in myself and I like what I see in the mirror. This reset has changed my life and I will continue with this journey forever.”

**- Kim**

## Trends ★★★★★

😊 One of my apps sent me a notification this morning about a significant change in my blood glucose over the last 5 days, which happens to be the start of my 1st reset! I'm T1D, by the way, and 100% insulin dependent. **This is HUGE!** I can't tell you how thrilled I am to see what's happening to my body. Even my bathroom scales has changed.

**- Lori**

# ★★★★★ Testimonies ★★★★★

“This reset has made me feel so much better all around. **I have more energy, much better sleep and I even wake up feeling rested** and ready to go.

This has helped me to get in a better routine of walking in the morning. I'm **making better food choices**, which is easy when your cravings are curbed with the help of NR!!! I'm also **down 10 lbs in the 14 days!**”

- Erin

“I was truly surprised by the results of my first reset. I expected a bit of weight loss and more energy from all the stories I read, and it did not disappoint! What I didn't anticipate was that the perimenopause symptoms would go away in just 14 days! **The hot flashes just disappeared!**

Oh - and I seem to have FEWER grey hairs than before I started. I'll stay at 6 ounces of NingXia Red till the next reset. I like feeling this good!”

- Jill

“This was my first reset and a complete game changer for me! **I am prioritizing my health for the first time EVER.** I no longer crave sugar, pop, or coffee, I consumed these multiple times/day before. My skin has dramatically improved along with my mood, energy, and motivation. After the reset **I have shed 6 lbs, lost 2" in my chest, 4" in my waist, and 2" in my hips.** I am excited to continue to do this work for my health and so grateful for this group helping me begin this journey!”

- Ashley

“I did the reset with my wife. I was sick of feeling bloated and not having any energy. Daily my stomach hurt no matter what I ate. had enough energy to work, but would come home exhausted and irritable.

I started the 14 Day Reset, cleaned up my diet, upped my water, took good supplements and started working out daily. Now, I have **no belly pains**, after work I will want to workout which never would have happened before the reset. **I no longer have aches and pains in my back and wrist.**”

- Shane

“I just got done with my 1st 14 day Reset. I feel so good. **More energy is what I noticed 1st.** Then sleeping better and not as much brain fog and less bloat.

My **skin seems a bit smoother**, even the Dermatologist told me my skin looked great a couple days ago.

I use to have to take a nap every day, even if it was in the car line at school. **I have not taken one nap in the 14 days,** this is HUGE for me as a mom of six kids.”
